

LIFE CleanAirMM

Piloting clean power supply devices in construction and urban green care to reduce emissions from portable machines

Andreas Sedlmayr - Instagrid, Germany

ANDREAS SEDLMAYR

Co-Founder & Co-CEO

LIFE CLEANAIRMM

Ukraine Green Recovery Conference
Vilnius, 28 November - 1 December 2023

STATIONARY POWER

Annual spend on fuel in construction:

\$30 BN

1h of using a
gasoline generator

exhaust fumes
from driving 250km

PURE INSTANT POWER

No noise

No exhaust emissions

Up to 97% lower GHG emissions

Over 80% lower cost

22 000 USERS IN 2022

„Oh, we put everything on there, welders, circular saws and they all work fine.

My workers fight over who gets the batteries ...“

1.9 GWh

of energy delivered

21 000 CO₂e

emissions saved

10 000 NOx

emissions saved

Urban Air Quality

Addressing an overlooked environmental & health problem

	NOx g/kWh	CO g/kWh
Diesel generator	27	77
Gasoline generator	4	2100
IG One max.	0	0

Setting local emissions to zero.
